DETAILED ACTION

1. Claims 1, 4, 7 of U. S. Application 10/626,586, filed 7/25/2003, are pending.

Allowable Subject Matter

2. Claims 1, 4, 7 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance.

Applicants argue that the applied prior art does not disclose or suggest “*displaying a constraint condition of each movable unit and a direction of propagation of a movement of a link, specifying a geometric constraint condition, displaying the geometric constraint condition, extracting a shape determined by the specified geometric constraint condition, and displaying the extracted shape with an emphasis to facilitate viewing by the user*” as recited. This is an accurate statement. Therefore, the claims as arranged and in view of the specification are novel and non-obvious over the prior art of record. As stated in MPEP § 2131.02, “The identical invention must be shown in as complete detail as is contained in the ... claim.” *Richardson v. Suzuki Motor Co.*, 868 F.2d 1226, 1236, 9 USPQ2d 1913, 1920 (Fed. Cir. 1989). The elements must be arranged as required by the claim, but this is not an *ipsisimilis verbis* test, i.e., identity of terminology is not required. *In re Bond*, 910 F.2d 831, 15 USPQ2d 1566 (Fed. Cir. 1990). Therefore, the prior art of record does not anticipate, render obvious or read on the claims and the claims do not read on the prior art. Applicants are thanked for pointing out (page 7, remarks) the distinctions between the prior art of record and the claimed invention. All other rejections are withdrawn.
